Coordinator

Besnik Mehmeti, besnik.mehmeti@ancitoscana.it

This is the second DesignsCAPES international policy forum, following on from the successful event held in Valencia, World Design Capital in 2022 (<https://tinyurl.com/y46sas5v>) in March this year (<https://tinyurl.com/yxe72wpw>). A keynote and panel discussion on which EU, regional and local policies should ignite the transformative power of design for sustainable and responsible innovation in European cities.

Disclaimer. The opinion expressed in this conference do not necessary reflect the official standpoints of any EU or MS institution.
